### GARDNER SPURNS OLIVE BRANCH

He and His Roosevelt Associates Reject Suggestion for Harmony in Party on Delegate Fight.

Washington, April 5.—Congressman A. P. Gardner and his associates on the so-called Roosevelt ticket in Massachusetts, it is understood here, are unwilling to accept an informal suggestion made to them that both sides in the national delegate fight close their headquarters, and let the voters go into the primaries three weeks from yesterday without further effort to influence their decision.

It had been hoped by some prominent Republicans that an arrangement to this end might be made to avoid any further conflict within the party. The suggestion of this "compromise" was only a tentative one and may not have reached Governor McCall. It had no other purpose than to preserve party harmony to the greatest extent possible under the circumstances.

### RURAL SCHOOLS

Proper Methods of Heating and of Ventilation.

BY CHARLES R. BEEMAN

Thirty pupils in an ordinary school-room will breathe all of the air once in about one-half hour. By noon they will have breathed it over for about the fifth time.

The air we breathe contains carbon dioxide, a poison, organic waste matter and not infrequently dangerous disease germs. Can you think of a more disgusting and dangerous habit than that of breathing, over and over again, air that not only contains our own body poisons but also those of many others in the room?

Besides the dangers to health there are other results which prevent the best of school work. Much of the listlessness and disorder in a school-room and the nodding of heads in churches is due to poor ventilation.

In a vast majority of rural schools the ventilation is usually furnished by the friendly cracks or the broken window pane. That some better system is needed is very evident to anyone who has ever attended a rural school and seen the results of the teacher's efforts to ventilate the room by opening a window. Usually the windows are so located that it is almost impossible to open them without causing a draught on one or more pupils. Of course a make shift for ventilation may be made with window boards or cheese-cloth screens, but I wish to explain a system of heating that for a number of years has met with splendid success in the middle and northwest states.

The average rural school in this sec-

### Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

### MARRIED MEN COMMITTEES TO HUNT UP BACHELORS

Earl of Derby Approves Plan to Get All Single Men Into the British Army.

London, April 5.—The Earl of Derby has approved a suggestion of a deputation from the national union of attested married men that the members of the union organize themselves in the country in committees to assist local recruiting officers in tracing single men and helping to secure the services of such men for the army.

This was officially announced yesterday following a meeting of a deputation of the union with Lord Derby, Monday. The deputation further urged upon Lord Derby the desirability of pressing upon Premier Asquith the question of universal service as not only necessary but just. Lord Derby promised to lay the views of the deputation before the premier, if the deputation found itself unable to secure an interview on the subject with some other member of the government.

### EAST RIVER PLAN PASSED.

The House Accepts Proposal as Originally Drawn by Committee.

Washington, April 5.—After attempts had been made by Representatives Treadwell of Massachusetts and Humphreys of Washington to kill the new East river project in the rivers and harbors bill, the House yesterday afternoon accepted the project as originally drawn by the committee. During the debate on the bill, amendments were made that the project was inserted in the bill to appease Tammany and bring about a reconciliation. The project was defended by the New York representatives as a preparedness measure.

### COLLECTORS ARE ACCUSED

Revenue Men Dragged into Tobacco Fraud Cases

IN COLLUSION WITH MANUFACTURERS

Estimated Government Lost \$20,000,000 in Tobacco Fraud Cases

Washington, April 5.—Charges that collusion has existed for years between certain deputy internal revenue collectors in New York City and cigar manufacturers recently arrested in the alleged \$20,000,000 tobacco fraud cases are under investigation by the treasury department.

Treasury officials said yesterday that Carl E. Whitney, a New York lawyer, had filed charges that a number of deputy internal revenue collectors in that city are involved in the tobacco frauds. More than 100 deputy collectors are in New York, but only a part of the number are suspected of participating in frauds involving hundreds of cigar and cigarette manufacturers, in which the government is believed to have lost \$20,000,000 in uncollected internal revenue.

Mr. Whitney made his charges to Assistant Secretary Malburn but declined to give the names of the deputies involved. He is counsel for some of the cigar manufacturers and officials here understood he will use his information about the deputies if his clients come to trial.

An investigation is being made by John Z. Lowe, collector at New York. According to treasury officials Mr. Whitney charged that collectors have not only been receiving regular remittances weekly from manufacturers, but in some cases have approached manufacturers who were not evading the law and pointed out the ease with which they could escape payment of revenue duties and offered to co-operate with them to this end for small considerations weekly.

The alleged frauds were unearthed, it was said yesterday, through a transfer from New York to Philadelphia of John Zinsel, a revenue agent stationed at New York for some time. Mr. Zinsel was succeeded at New York by L. G. Nutt, who soon after assuming office became acquainted with the alleged workings of the manufacturers and deputy collectors and investigated. Assistant Secretary Malburn made it clear yesterday that Mr. Zinsel was in no way involved, but that conditions in New York had simply escaped his notice.

### ANOTHER YEAR OF WAR BRITISH COMMONS LEARN

Chancellor Assumes Hostilities Will Last 12 Months More—New Budget \$9,000,000,000.

London, April 5.—In opening his budget speech in the House of Commons yesterday Reginald McKenna, chancellor of the exchequer, said it was assumed that the war would last during the whole of the financial year.

Expectations are for a budget totaling at least \$9,000,000,000, which is nine times the natural expenditure in the last completed year of peace. Mr. McKenna said a generous allowance would have to be made for the difficulty of framing exact estimates, in view of such questions as the shortage of tonnage and restrictions upon foreign trade and he had assumed that the war would last during the whole of the financial year. The actual expenditure during the past year was \$7,795,000,000 or \$155,000,000 below the estimate, said the chancellor. Great Britain's allies had been assisted to the amount of \$1,320,000,000 and her dominions to the amount of \$200,000,000.

In his speech Chancellor McKenna proposed putting a tax on amusements, including theatres, moving picture establishments, football matches and horse races. The tax on these would be graduated, according to the charge for admission.

An additional half penny tax on sugar was proposed. This, it was calculated, would produce a revenue of \$35,000,000. A tax of one penny on railway tickets costing between 9d and 1s, with a penny tax for each additional shilling was announced in the budget speech.

### MRS. WAITE ASKS DIVORCE.

Wife of Confessed Murderer of Her Parents Brings Court Action.

Grand Rapids, Mich., April 5.—Mrs. Clara Louise Peck Waite yesterday filed suit for divorce in superior court here against her husband, Dr. Arthur Warren Waite of New York, who has confessed to the murder of her father and mother, Mr. and Mrs. John E. Peck.

### TOOK HIS OWN LIFE.

Donley Killed Himself After Withstanding Long Siege.

New York, April 5.—William Donley, a hunter and guide, lay dead yesterday in his home in Babylon, L. I., where he had wounded five persons and fought a 12 hours' battle with the sheriff and 14 deputies who attempted to arrest him. Armed with rifles, shot guns and revolvers, Donley withstood siege by the

### HOW TO PROLONG LIFE

By adopting a simple diet men like Conaro have lived to be 100 years of age, but with our complex diets of today, the vitality of the aged is taxed to its utmost by any good dinner. State Surgeon General Blair says that a properly made and constructed home-made system may be trusted to work as well as a higher priced patented one. He also says that the cost ought not to be more than \$20 over the price of a first-class round heater.

Let prosperity come to the rural schools!

**"What! You saved 4 tons with Radiator heating?"**

**"Say, John, is that right? And you say that the entire house is ideally warmed all over all the time!"**

**Comfortable party**—"Oh, sure, we're warm as toast. Why, listen! Before I discovered the fault in our old-fashioned heating, our home was a regular 'barn.' Wife had a series of colds every winter, and then the kiddies would snuffle with theirs until our house got to be the doctor's hang-out."

**Chilled party**—"That's the way it is here now with everybody, from the baby up. Something's got to be done or I'll move. Jane says she can't keep good help on account of lifting and sifting coal and ashes, poking and coaxing fires, blackening, and other ills of old-fashioned heating."

**Comfortable party**—"Stop worrying, old man, and take a hot tip! Let the dealers put radiator heating in your place. It's done in a jiffy, any time of the year—though this is the best time to buy. Get busy and cheer up the old house; besides, it will go up in value just the minute you put in radiators. Everybody wants them nowadays. Twice as easy to sell or rent because folks have wised-up on the great comfort and coal-savings of radiator heat—the biggest home-making feature in the world."

**Chilled party (eagerly)**—"Say, John, I'll take your advice, and put in those famous chill-chasers—"

A No. 1-25-W IDEAL Boiler and 575 ft. of 38-in. AMERICAN Radiators, costing the owner \$230, were used to heat this cottage. At this price the goods can be bought of any reputable, competent fitter. This did not include cost of labor, pipe, valves, freight, etc., which vary according to climatic and other conditions.

## AMERICAN & IDEAL RADIATORS & BOILERS

These outfits are the highest standard of equipment, for the healthfully heated home. AMERICAN-IDEAL heating is the only feature of a building which will never be worth less than you paid for it, and will quickly repay cost through big fuel savings, absence of repairs, least care-taking, no blackening, summer storage, etc. Accept no substitute.

**A volume of heating information free**  
Ask for free copy of "Ideal Heating," full of sensible and valuable facts that will put many "heating-dollars" in your pocket. Write today.

## AMERICAN RADIATOR COMPANY

Public Showrooms at Chicago, New York, Boston, Worcester, Providence, Philadelphia, Washington, Baltimore, Rochester, Buffalo, Pittsburgh, Cleveland, Cincinnati, Detroit, Atlanta, Birmingham, New Orleans, Indianapolis, Milwaukee, Des Moines, Omaha, Minneapolis, St. Paul, St. Louis, Kansas City, Denver, Seattle, Portland, Spokane, Toronto, Los Angeles, San Francisco, Bradford (Ont.), London, Paris, Brussels, Berlin, Cologne, Milan, Vienna.

IDEAL Boilers will supply ample heat on one charging of coal for 8 to 14 hours, depending on severity of weather. Every ounce of fuel is made to yield utmost results.

county authorities from noon Monday to early yesterday morning. When the attackers, after a long silence forced their way into the house, they found Donley had shot himself in the head.

Donley's friends believe he was driven insane by his recent arrest for shooting ducks out of season and the imposition of a fine of \$600, which he could not pay. He accused two of his neighbors of mak-

ing the complaint against him, and opening fire on them with a shot gun, wounding both. A third neighbor who intervened also was wounded. Donley then fired several shots at his wife and at the wife of a neighbor, slightly wounding the latter. For hours thereafter Donley fired at any person who came near his home. A policeman attempting to arrest him was shot in the arm and leg.

### FORD IN LEAD

In Race for Michigan's Endorsement for Republican Nomination.

Detroit, Mich., April 5.—With returns received from 205 of the 215 precincts in the city of Detroit and approximately one-sixth of the voting districts in the state outside of Detroit, Henry Ford led

Senator William Alden Smith by approximately 3,400 votes as a result of Monday's balloting in the Republican presidential preference primary. Figures available were:

Henry Ford, 16,508; Senator Smith, 13,138; William G. Simpson, 2,083. President Wilson had no opposition on the Democratic ticket and the national Progressives had no candidates.

## You'll like Camel Cigarettes, fine!

The tobaccos are choice Turkish and choice Domestic, expertly blended, to give you a mellow-mild-body and a flavor as new to your taste as it is refreshing!

Camels leave no unpleasant cigarette after-taste and they will neither bite your tongue nor parch your throat, no matter how liberally you smoke them!

Smokers do not look for or expect coupons or premiums with Camels because they realize the value is in the cigarettes, which stand every test you care to make against any cigarette in the world at any price! You'll find Camels meet your fondest cigarette desires!

Men, you'll get a lot of satisfaction with Camel cigarettes!

The stamp placed over and under the package which keeps out air, thereby preserving the quality of the blended tobaccos. By inserting the fingers, as illustrated, the stamp easily breaks without tearing the tin foil, which folds back into its place.

# Camel Cigarettes

Camels are sold everywhere in scientifically sealed packages, 20 for 10c; or ten packages (200 cigarettes) in a glassine-paper-covered carton for \$1.00. We strongly recommend this carton for the home or office supply or when you travel.
